168 PARISH HALL

Background

There are long term proposals to re-build the Parish Hall.
There are a number of operational and staffing related issues that require addressing in the meantime.

For example, it may be economic to introduce some sort of electronic user access system to Facilitate (known) users to access the Parish Hall without the need for staff to open and close the Premises, which might alleviate awkward work scheduling. Although the Hall may be re-built, equipment for that purpose could be removed and reused.

A possible measure would be the adoption of electronic booking and payment for hall and chapel bookings etc. the current web site and hosting arrangements do not lend themselves to facilitating this sort of provision.

It is recommended that the council resolves:

- 1 That a working group is convened to look at all aspects of the Parish Hall, including both reconstruction proposals, and operational arrangements, and
- 2 That investigations that the group is tasked with include (but are not confined to) electronic access to and booking of council premises, including implications to the web site and premises alarm system

RESOLVED that; a working party to discuss the Parish Hall requirements will convene on Thursday 5th July 2018 at 7.00pm.
